Payment Policy

I/We understand that the tuition is due upon registration. Checks payable to JCCH.

Refund Policy

Parents will be responsible for the total tuition regardless of absences or voluntary withdrawal of the child from the school. Child's attendance in the ECC constitutes enrollment and agreement with the tuition terms of this contract.

If, after due consideration, it is the opinion of the school that the child is not benefitting from the Early Childhood Program experience, it is the school's privilege to request that the child be withdrawn. In such event, the tuition will be adjusted to the date of such withdrawal.

Photography Policy

I/We grant permission for the JCCH to take photographs of my child(ren) and my family for use in original or modified form in traditional and social media now or hereafter, for the promotion, public education, and/or fundraising activities at the JCCH. I/We will receive no compensation for use of photos.

Emergency Policy

I/We understand that I will be contacted in case of emergency.

I/We hereby grant permission to the JCCH to authorize any emergency action necessary to ensure the safety of my child.

"Happy FIT Sports" - Mondays

Designed for preschoolers and led by professional, college level coaches who ensure gross motor skill development and gains in balance, coordination and agility. This cross training program is action packed with sports such as

Kool Kickball, Fit Kick Agility & Games, Run for Fun Track & Field, Hooray for Hoops Basketball, and Soccer.

"Shining Stars" - Tuesdays

Is imagination your child's middle name? Does your child like to prance, pose, or twirl? Do you have an aspiring super hero or ballerina in the family? Led by drama coaches and actors in training, this program provides children with the opportunity to experiment with creative movement, acting, set design and costumes. Clever games help support and encourage your child's self esteem, public speaking ability, voice projection, creativity and social skills. Shining Stars staff collaborate with our staff for an end of the year production for parents, classmates and teachers.

"Gym On Wheels" - Wednesdays

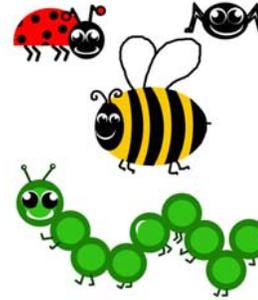

This indoor gymnastics class for toddlers to preschoolers incorporates stretching exercises, aerobics to music, beginning gymnastic/tumbling games and lots of fun. The children will learn the basic skills used for pommel horse, high bars, balance beams, parallel bars, springboards and more. The class will experience a high energy, motivating, self-esteem building and nurturing atmosphere by a CPR/First Aid and USA Gymnastics certified instructor.

"The Nature of Things" - Thursdays

The children meet weekly with a naturalist and environmental educator from The Nature of Things. Each week they are introduced to animals and their environments by theme. The children learn how to identify mammals, with the naturalist bringing living and breathing examples (rabbits, ferrets, hedgehogs and gerbils). The next week it may be reptiles and amphibians (snakes, lizards and frogs) or birds (chickens, doves and ducks). When appropriate, the children are given the opportunity to touch the animals, followed by a thorough hand washing. They spend time talking about and learning the characteristics of each of the animals. The naturalist has even accommodated our yearly Passover lessons by supplying living examples of some of the plagues in the form of frogs and insects (crickets and giant hissing cockroaches)!

The naturalist teaches the children about the various habitats throughout the world such as the rainforest and desert, all the while reinforcing the importance of taking care of the environment and our world. The children play games and reinforce their learning through additional creative activities. Their experience in "The Nature of Things" is something you surely can't duplicate at home.

All classes meet 12:00-2:30

Parents provide a NUT FREE, kosher, dairy lunch.

"Little Flower Yoga: Yoga and Mindfulness for Kids" - Fridays

The classes in this series are 45 minutes in length and will always be split into five basic elements to provide a complete practice of yoga and mindfulness for kids. The classes will cultivate life skills to help children regulate their emotions, make good choices and stay focused. Most importantly the classes will provide a fun way for the children to foster skills that will ultimately improve overall well being to live happier and healthier lives.

Some goals of the program are to:

- ◆ *Introduce a series of movement practices to increase strength, balance, flexibility, coordination and body awareness.*
- ◆ *Learn different ways to use your breath to explore and discover the ways in which breath can affect your energy level and your emotions.*
- ◆ *Improve focus and to manage distractions.*

"What's Jewish About Butterflies?" - Fridays

Based on the curriculum of Maxine Handelman & Deborah Schein, this series of dynamic and engaging learning activities integrates Jewish concepts, values, Israel connections, songs, poetry, blessings, cooking and Hebrew vocabulary into the classroom in a natural way. **Activities will take place after yoga.**

Registration is by "semester." If you wish to register, please turn the form on the back, choosing one or two semesters. You may add a program for your child during the year for a pro-rated fee provided there is sufficient staff coverage available. Enrichment programs begin early September and end the last week of school.
